EXIM BANK FUNDS SOLAR FARM PROJECTS IN JAPAN

The Export-Import Bank recently signed a Bt1.31 billion financial facility for Premier Solution's acquisition of solar panels and equipment for six solar farm projects operated by Chow Steel Group with total capacity of 8.74 megawatts in Japan's Fukui prefecture.

Chow Steel Group has planned power sales for 20 years to Hokuriku Electric Power Co, an electricity supplier in Japan

Chow Steel Group has been among Thai investors pioneering the solar farm business in Japan over the past two years, with 23MW solar farms now in commercial operation.
