

CHOW.143/2017

27 September 2017

Subject: Update of Solar Power Projects in Japan
To: President of the Stock Exchange of Thailand
Enclosure: Construction progress photos

Chow Steel Industries Public Company Limited (“CHOW”) would like to inform the Stock Exchange of Thailand on the development progress and investment of solar power project Iwaki in Japan under the TK structure through an indirect subsidiary for 100%. Project Iwaki, capacity 26.68 MW (DC) located in Fukushima prefecture, expected construction completed 100% in 4Q-2017.

CHOW currently holds interest in 11 solar projects in Japan with total generation capacity of 63.45 MW and Project Rooftop in Thailand with total generation capacity of 6.64 MW. Total 70.09 MW. CHOW will continue to seek investment opportunities in renewable power projects to achieve growth target of 100 MW by focusing on markets with attractive growth and supportive government policy.

Please be informed accordingly.

Sincerely Yours,

(Mr. Anavin Jiratomsiri)

Chairman of Executive Committee
